Computer Basics
Mac vs. PC Computers and Operating Systems

Standards: **FT5.1**-Demonstrate knowledge of features in the operating system

FT5.2-Analyze operating system capabilities and restrictions

Learning Target: Students will understand differences between operating systems.

Name(s):_____

Content

Demonstrate knowledge operating systems

- ❐ What is the definition of an operating system?
- ❐ What are the 3 major operating systems and their current releases?
- ❐ How to terminate a program using task manager?
- ❐ What language does a computer normally speak and how do operating systems help us interact with computers?
- ❐ Which one would you chose and why? Based off of your research.

Mac operating system restrictions and capabilities

- ❐ Customization and Upgrades
- ❐ Support for connectivity for portable media (Drivers)
- ❐ Security of the operating system
- ❐ Stability of the system
- ❐ Reliability of the system
- ❐ Software and Services
- ❐ Boot time, Memory, Hard Drive Space
- ❐ Cost

PC operating system restrictions and capabilities

- ❐ Customization and Upgrades
- ❐ Support for connectivity for portable media (Drivers)
- ❐ Security of the operating system
- ❐ Stability of the system
- ❐ Reliability of the system
- ❐ Software and Services
- ❐ Boot time, Memory, Hard Drive Space
- ❐ Cost

Presentation Appearance

- ❐ Related pictures that enhance/deepen understanding
- ❐ Professional appearance (layout, language, colors, backgrounds)
- ❐ Works Cited Slide (sources for all information)
