

Photoshop Animation

Learning Target: Students will be able to create frame-by-frame animations using Photoshop.

You will be working in Photoshop CC and using the online eBook in order to complete the lessons listed below.

Daily Lessons:

Creating Animated Images	
Projects to Complete	Points Possible
1. Blender	10
2. Logo1	5
3. Logo2	5
4. Logo3	5
5. Logo4	5
6. Fruit	15
	45 total points

These are very technical steps! Make sure you **read carefully and follow all instructions**. Make sure you save often and save as a Photoshop file. The files that you will need are in the Photoshop Animation folder located on the rm108shared drive.

Each frame should be at least **0.1 seconds** in length.

You will have **2 days** to complete the **lessons**.

If you have questions – raise your hand and wait patiently. Remember rereading the steps and/or asking your neighbors for help are also options. Try to troubleshoot on your own first!

Save all your work into your Photoshop Animation folder on the rm108user drive!
